LOS ANGELES, CALIFORNIA, SUNDAY MORNING, APRIL 23, 1882.

NO. 121.

## AFTERNOON DISPATCHES.

**Miller and Farley Working the Chinese Bill Through.**

**Judgment for \$100,000—A Major Steals \$114,000—Another Texas Train Robbery—Chilean Matters.**

Associated Press Dispatches.

WASHINGTON, April 22.—Senators Miller and Farley each took occasion to remind the Senate today that they intend to press the Chinese bill for consideration just as soon as the Mississippi river bill is disposed of. Miller intimated that he would urge the Senate to take up and press the bill next Tuesday, whether the pending business be then finished or not. Farley said he was assured by the friends of the Mississippi improvement bill, that it would be pressed to a final vote Monday. As the great importance of the Chinese bill was apparent to every Senator, he earnestly hoped that there would be no opposition to taking it up for action on the day following. He also expressed his opinion that it will not occupy more than one day. The presiding officer, Judge Davis, remarked that notices of this kind have no binding effect, and that the Senate will have to determine the order of business after disposing of the Funding bill. This, of course, is true, and was understood before he announced it, but the reiterated notices of the California Senators have nevertheless practically served the pre-emption purpose for which they were intended, and there was no doubt that the Chinese bill will be brought before the Senate for action Tuesday, or Wednesday at the latest.

## REPUBLICAN CAUCUS DISCUSSING THE BILL.

The Republican caucus was called to name Senators to fill the places in committees vacated by Teller's resignation, but after this duty had been devolved upon a caucus of the Committee of Arrangements, Edmunds brought up the Chinese question, by suggesting that it would be good party policy to give the united Republican support to the amendments reported from the Foreign Relations Committee, which provide for striking out the 14th and 15th sections of the House bill. These are the sections that expressly prohibit Chinese naturalization, and define the term "Chinese laborers" to mean both skilled and unskilled laborers. It is evident that many Senators are in favor of adopting Edmunds' course. Miller and Jones promptly replied that they could not consent to have those sections stricken out. They also emphatically remarked that they would refuse to be bound by any caucus action on the Chinese question, and that they, namely Brown and Hill, of Georgia, are thoroughly opposed to the Chinese bill, and if Miller and Jones should be deserted by all their Republican colleagues when a vote is taken on these amendments, the result in the Senate would be determined by Davis, of Illinois, who would almost certainly vote to strike out the fourteenth and fifteenth sections. The arrival of this contingency is not probable, however. In the suit of *Malillo Kilbourne* against ex-Sergeant at arms Thompson, yesterday, the jury returned a verdict of one hundred thousand dollars in favor of Kilbourne. General surprise is expressed at the verdict. The prevailing opinion is that it is excessive and ought to be set aside.

## A PUT UP JOB.

A petition was received in the House today from Milwaukee Orangemen, asking Congress to take measures to prevent the immigration of Catholic Irish, and to pass a law similar to the Chinese bill. It was signed by William, referring to it, very plainly said that that was exactly what he predicted when the Chinese bill was passed, and it was, in a great measure, the cause of his opposition.

## UTE COMMISSIONERS.

It is stated to-day that the nominations of Henry B. Jones, of Colorado, governor, and Jackson Orr, of Colorado, will be sent to the Senate on Monday, as members of the Ute Commission.

## INDICTMENT QUASHED.

Judge Wylie has granted a motion to quash the indictment in the case of Bendell, indicted in connection with the star route frauds.

## ORDERS TO THE CORWIS.

Secretary Folger has telegraphed the commander of the Corwin that if the Rogers crew are closed, to try to reach the Rogers crew across the country.

## NEW YORK NOTES.

**Long Island Mayor Approves \$114,000.**  
New York, April 22.—The Mayor of Long Island City was arrested today for the robbery of \$114,000, alleged to have been misappropriated from the proceeds of the sales of bonds. Bail was set at \$50,000.

**A STARTLING ACCUSATION.**  
The *Tribune* reproduces affidavits of Adolph Rabin, made in 1874, to the effect that ex-Deputy Cannon tried, in 1855, to induce him (Rabin) to murder Almon W. Babbitt, then Secretary of Utah Territory. These affidavits have been in the possession of the Government at Washington for years. Mr. Merriam, a member of Congress in 1874, intended to use them in his effort to oust Cannon from his seat, but before he could complete his plans the solid support of the Democrats, combined with that of a few Republicans, made the project impractical and it was postponed.

## CHILIAN MATTERS.

New York, April 22.—Washington specials have the following points: Private letters from Chili say that the editorial comments in Chili are those of great glee and joy of the people there at the change in the policy begun by Blaine, and it is open and avowed. There is no doubt that Chili has been receiving moral support from England, and it is the general belief that England and Chili have come to some understanding regarding the Isthmus canal. It is everywhere believed that England intends to control either the whole canal or a fair share in it in some way. The Chileans are kept informed of the purposes of this Government, and President Latorre has been astonished to find that information which should have reached him first has first been known to people in Chili before he himself had received it officially or privately.

## THE PACIFIC COAST.

**The Gatherer Captain Goes Unhinged—The Jury Disagrees.**

SAN FRANCISCO, April 22.—The jury in the case of Captain Sparks, of the ship *Gatherer*, charged with inhuman treatment of sailors, after being out some hours came into court at 11 o'clock last night with a statement that it was impossible to agree upon a verdict. The jury was discharged. They stood seven for acquittal and five for conviction.

## BOYCOTTING BEGINS.

It is ascertained that among the signers of the petition from New York praying the President to veto the Chinese bill are the following corporations and firms that are represented in this city, viz: Insurance companies—The German American, Phoenix of New York, Exchange and Tradesman's; Dry Goods—E. S. Jaffray; Bankers—Seligman & Co.; Importers—A. A. Low & Co.

## THE EARPS HEARD FROM.

TUCSON, April 22.—A *Clifton* special from Colton says: Virgil Earp has received a letter from a brother in Illinois. The boys say they left the country for fear of killing some good men. They will take steps to return at an early day.

## Another Train Robbed.

DALLAS, Texas, April 22.—The Texas train robbers came out of their rendezvous in the canyon and mountain fastnesses of Upper Brazos country last night, and when the train from San Francisco, on the Texas Pacific road, pulled up at Ranger Station, they took possession. There were five robbers, all armed to the teeth. The tender entered the express car, commanding the messenger to throw up his hands. The colored porter made a dash for the passenger coach and roused three Texas Rangers who had been traveling on the train for several weeks as guards. When they reached the outside the robbers opened fire on them, keeping captive the train men as breakwaters. The robbers returned the fire, and without effect, as the robbers had robbed the express car, the gang retired in single file, making the train men follow between them and the robbers, until they were out of danger. It was nearly an hour before the train men got back to the cars. The robbers did not molest the United States mails or the passengers. The messenger states that the robbers secured less than \$500. It is generally believed, however, that a very large haul was made. The robbers are expected to return to the robbers are, and predict their capture.

## A YUCATAN BALL.

**A Yankee Gives His Experience With a Lovely Mexican.**

The same dazzling array of beautiful, jewel-bedecked *mesitas* girls beamed upon us this evening, as at the first dance, and soon all were busy filling their books for the dances. There was no prescribed style of dress for the men; some wore their shirts outside, flustering in the evening air; some wore their inside, and some wore their coats. The women wore coats, but all wore their hats. Unobserved in a corner, I was watching the strange costumes, when the sharp eye of the General espied me, from his chair of state, beneath his own portrait, draped in Mexican colors.

## San Diego.

We have returned. We saw the quiet city by the sea, and enjoyed the hospitality of the citizens. The lay of the city is as beautiful as its quietude is peaceful. Its future is yet a thing of hope and fear. If it succeeds in turning the world's commerce into its placid bay, then it will become the semi-provincial thoroughfare for freight and traveling nations. There is no other ground upon which to base a prospective future. We made our pilgrimage to Sweet Water valley, and from the heights looked into Paradise valley. In the future prosperity of Southern California, it will exceed any fertile valley the world has ever produced.

## Something Lacking.

A well-known Illinois farmer was in Chicago on business the other day, when an acquaintance took occasion to ask:

"Well, Farmer Jones, is the wheat all right this spring?"

"Yes, pretty fair," was the grudging reply.

"Good show for fruit?"

"Well, I guess so."

"Sell all your potatoes at a big price?"

"Party big, but I didn't have many."

"Had any too much rain in your section?"

"Guess not."

"Well, then, I don't see as you have anything to complain of. I think you ought to feel like a young colt."

"Well, I suppose things do look a little bright—just a little—but I don't see any occasion for shouting. Fact is, twenty-one of my ewes had single lambs when they might as well have had twins, and I don't look for much of a price on wool this summer."

## THE WEEK AT SANTA ANA.

[Herald, April 21st.]

The spring clip of wool is coming forward briskly, and sheep owners report that there will be at least two-thirds of a crop. Three car loads went forward to San Francisco yesterday.

Mrs. Morton was thrown from her carriage on Thursday, and, we understand, seriously hurt.

Mr. J. L. Garmon is working two large gangs of men in his brickyard, and will mould and burn as fast as possible.

The Odd Fellows of this place will give a social dance, for members of the Order only, on Wednesday evening next, at Temple Hall.

A large audience greeted the first representation of "Out in the Streets," by the Mattheson Dramatic Club on Thursday evening. The members acquitted themselves in a manner to win the hearty approval of the crowded house.

The trial of J. W. Layman, for violating the Sunday law in keeping open his bar, took place in Judge Freeman's court on Monday. The jury failed to agree, standing six for acquittal and six for conviction. The next trial of the case took place yesterday, when the case was transferred to San Juan.

The demand for bricks will tax both yards to their utmost capacity for some time to come, to supply the home demand. There are a dozen or more brick buildings projected, most of them two-stories, and two particularly, those of Mr. Spurgeon and Mr. Seibert, will require great quantities of bricks.

Mr. D. H. Hewes finished planting two hundred acres of raisin (Muscat) grape vines on Wednesday, on his ranch near the foothills, north of Tucson, and has also planted fifteen acres for his nephew, lately arrived here from the East. There seems to be no reason to doubt that a thousand acres have been planted to grape vines in the valley during the present season. The raisin grape has been generally planted.

One hundred and thirty dollars per front foot may be considered a pretty good figure for lots in a country town, and the price has just been paid for a lot on the corner of Fourth and Main streets, 25 feet front by 85 feet deep. It was purchased by the new banking association, who intend to build a two-story brick building thereon, having already, we understand, contracted for the brick.

On Friday evening of last week, the residence of our respected townsman, Wm. H. Spurgeon, Esq., was invaded by a large party of friends, taking that gentleman and his wife completely by surprise. The occasion was the (tenth) anniversary of their marriage.

## TUCSON TIDINGS.

Citizen, April 18.  
Messrs. N. R. Vail and W. L. Vail are in from the Total Wreck. Mr. J. Vail, a son of Mr. N. R. Vail, arrived this morning from Los Angeles and is registered at Porter's.

Mr. Lionel M. Jacobs has received from Mr. Jacob H. Schiff, of New York, treasurer of the Russian refugee and colonization fund, a receipt for \$400, contributed by the citizens of Tucson to aid the persecuted Hebrews who are compelled to flee from Russia.

Jake Williams, the colored porter on the western bound sleeper of last evening, died between this place and Deming. The body was packed in ice and forwarded for burial to the man's family in California.

The man taken to the pest house a few days ago was put on the train at Benson and to this place occupied a box-car to himself. The Board of Health were notified by telegraph and were in waiting at the depot with the pest house wagon when the train arrived, and had the patient at once conveyed to the pest house, where he is progressing as favorably as possible.

## San Diego.

We have returned. We saw the quiet city by the sea, and enjoyed the hospitality of the citizens. The lay of the city is as beautiful as its quietude is peaceful. Its future is yet a thing of hope and fear. If it succeeds in turning the world's commerce into its placid bay, then it will become the semi-provincial thoroughfare for freight and traveling nations. There is no other ground upon which to base a prospective future. We made our pilgrimage to Sweet Water valley, and from the heights looked into Paradise valley. In the future prosperity of Southern California, it will exceed any fertile valley the world has ever produced.

The authorities speak as if a bitter contest were existing between that town and the California railroads in their portions. If that be true, and so continues, we may hope for competing lines in Southern California. One thing we thoroughly believe, and that is, in the future prosperity of Southern California, it will exceed any fertile valley the world has ever produced.

Within three years the tide of emigration will set in this direction and become a continuous pour until our valley is an unbroken garden. What we will build up San Diego city and county will aid in developing all portions of Southern California. Whatever may come to pass, we are more and more of the opinion that Los Angeles is the most desirable site and city in the sunny clime.—*The Light.*

"A few left," read our *Funny Contributor* as he looked at the notice of a sale of some choice lots in Manitoba.

"Yes," mused our contributor, "and there will be a good many more left if this thing goes on much longer."

A New York theatrical manager who advertised for 300 beautiful girls for a ballet, said that of 800 who were interviewed, not over twenty were common good-looking. How is it that the female sex is so deceived in itself.

## MISCELLANEOUS.

### MIRROR

### JOB PRINTING

### HOUSE

9 TEMPLE ST., LOS ANGELES.

THE PROPRIETORS OF THE MIRROR BOOK AND JOB PRINTING ESTABLISHMENT announce with confidence that they have the Best and Cheapest facilities for the PERFECT, CORRECT and CAREFUL execution of all the various descriptions of PRINTING to be found anywhere south of San Francisco. Being fully convinced of the fact that the price of Printing, like all other NECESSARY THINGS in California, has greatly decreased within the past year, they have accordingly reduced their prices to the lowest and the LATEST and MOST DESIRABLE.

### LABOR SAVING MACHINERY!

Knows to the ART, and are thus able to compete with San Francisco.

PARTICULAR ATTENTION GIVEN TO—  
LAWYERS' BRIEFS,  
TRANSCRIPTS,  
BOOKS, CATALOGUES,  
POSTERS, HANDBILLS,  
INVITATIONS, TICKETS,  
MONTHLY STATEMENTS,  
BILL HEADS, FREIGHT BILLS,  
PROGRAMMES, BILLS OF FARE,
